

10.06.2021

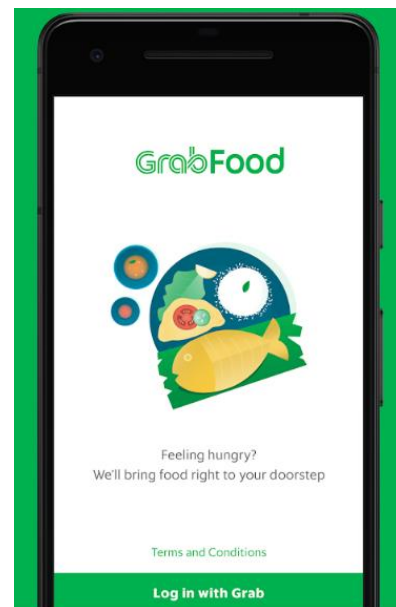

While we appreciate the most if you visit our place and enjoy your food at our place, the trend by consumers to use a food delivery system is steady growing. Customers want to earn reward points, want to have a selection of hundreds of restaurants, are ready to pay a flat delivery fee, are happy with a no minimum order and want to play with live orders status tracking! There are plenty and the number is growing of Food Delivery Services but not all of them have a good reputation, some of them rather a very bad reputation!

*We have started early of March 2020 - FOOD DELIVERY and have joined up as a MERCHANT with GRAB FOOD. Maybe the current situation with the **CORONA VIRUS** as well as the bleak Economic outlook helps us a lot since we have substantial orders daily via this delivery system.*

YOU - maybe also joining this system – but must download first the GrabFood Application!!

*“In today’s business world, it is not the strongest nor the biggest organization that will survive and be sustainable.... It is the one that is most **adaptable to change**”*

Therefore, you can also order now some of the Dishes for Dinner

The starting base for **delivery** service radius is 7km to 10km from our outlet's location. This radius is calculated using estimated driving distances and may vary from the **distance** shown in the app

Currently you can order up to 10KM radius for long-**distance** orders.

Ampang, Bangsar, Brickfields, Bukit Damansara, Cheras, Chow Kit, Kampung Baru, KL City Centre, Mid Valley, Mont Kiara, Pudu, Cheras, Setiawangsa, Segambut, Setapak, Sri Hartamas, Taman Desa, Wangsa Maju, Taman Tun Dr Ismail and Sri Petaling
